

## ITE, TEST & MEASUREMENT

Expertise, Experience and Service You can Trust

ITE (Information Technology Equipment) products are subjected to minimum safety requirements and cover a wide range of products, such as Data Circuits, Telecom Systems, Computers, Network Terminals, Power Supplies, Power Adaptors, Multimedia, Test & Measurement Equipment and more.

ITL provides quick turnover time with high quality service certifying ITE products to IEC 60950-1, EN 60950-1, UL 60950-1, IEC 60065, EN 60065, UL 60065, NEBS or any other product certification.

Whether you need a CE Mark, NRTL (UL, TUV, CSA, MET) Mark, GS Mark, S Mark, N Mark, GOST or any other International Mark or Type test compliance such as cTUVus, GS, Intertek CB, cETLus, cULus, cMETus and others, our industry specific testing experts understand your products requirements and can identify and implement solutions that will bring your products to global markets at minimum cost, time and efforts.

ITL provides guidance and certification for Test & Measurement equipment (typically using EN 61010-1). Equipment tested includes laboratory dental and other ovens, AOI equipment, test equipment, control equipment for plant process flow, ultrasound measurement equipment, electrical quantity measurement equipment, diagnostic equipment, biological sample test equipment, industrial substance sampling test equipment, hand-held test equipment, etc.

- ›Electrical measurement and test equipment products intended to measure, indicate, or record electrical or non-electrical quantities.
- ›Electrical control equipment intended to control output quantity
- ›Electrical laboratory equipment intended to measure, indicate, monitor or analyze substances.

**In addition ITL offer ITE and test and measurement services such as:**

- ›Safety & EMC type testing: for CE (European Harmonization Conformity)
- ›CB testing (International Certification) achieved through Global Agencies
- ›NRTL Listing: (North American Safety Certification) achieved through the US Agencies that recognize ITL evaluation (testing and report production).
- ›European GS Approval: achieved through the Agencies that recognize ITL evaluation (testing and report production).

**Expertise, Experience and Service You can Trust**

- ›High quality service to customers who deal with this category of equipment and a complete solution covering all applicable aspects whenever needed: laser, nonionizing emissions, EMC, Ionizing radiation, ozone production, flammability testing, environment toxicity, hazardous substances and others.
- ›An expert team specializing in the areas of measurement/lab/process control equipment.
- ›Guidance services to relevant standards during the phase of design and development.
- ›A project co-coordinator for each customer who activates the various project tasks and field specialists where needed.
- ›A pre-compliance evaluation (preliminary product construction review).
