

ISRAEL TESTING LABORATORIES
Global Certifications You Can Trust

Military compliance standards address the various functionality and safety requirements needed from the equipment used in military environments.

ITL can guide you on the specific certification requirements of your products and grant you with a variety of global certifications, locally.

ITL offers EMC and Environmental testing towards MIL-STD requirements.

As one of the most comprehensive testing laboratories in the industry we are pleased to announce the addition of a full suite of MILSTD testing capabilities. Whether you are looking for MIL-STD 461, MIL-STD 810 or any other tests, we provide the specific military standard testing you need.

Serving most of the Israeli defense industry, our team is highly professional and experienced.

SERVICE YOU CAN TRUST

We pride ourselves in creating relationships with every customer from beginning to end. It isn't just a matter of getting the testing completed, it's working to make a better, more robust product, for real use in the field. Our facilities offer anechoic chambers, designed to provide the most reliable results possible, while adhering to the highest military standard testing requirements.

Our highly trained technicians and engineers work to uphold the highest standards in military standard testing, cooperating with every client to ensure that the tested products offer the best performance possible in any environment
